Announcing: El Dorado Historic District Community Forum – 3rd Annual presents:
GO WITH THE FLOW – PIPELINES WORKING FOR YOU

Date: Tuesday, April 17, 2018
Time: 11:00 A.M. – 1:00 P.M.
Location: Historic Elks Building
121 E. Pine
El Dorado, KS 67042

Pipelines crisscross Kansas, flowing under Butler County - a vital part of the regional economy. El Dorado is an energy city. Energy is our past, present and future. Our energy story is one of national significance.

The Downtown Historic District is defined by buildings primarily from the boom times following the strike of the renowned Stapleton Well in 1917. Refineries and pipelines quickly followed and have been a part of our community since oil was discovered here.

Premier pipeline companies: Phillips 66 Pipeline, Magellan Pipeline, Holly Energy Pipeline, NuStar Energy and CHS Inc, are presenting the 3rd Annual Forum. The Forum is an ideal platform to convey accurate in-depth information concerning the pipeline industry and management challenges. Better understanding of pipelines and how they operate will help ensure the highest quality of life and standard of living for all.

All who are interested in our shared energy future are cordially invited at no charge. Albert Hogoboom Oilfield Trucking and Magellan and NuStar are hosting a lunch for those who RSVP by Friday, April 13th. Seating is limited. Please call 316-321-3088 to reserve your place.
